

WAMBUI KARANJA

Full Stack Developer | Software Engineer

Location: Nairobi, Kenya | Phone: +254 797 779 941 | Email:

wambuikaranja78@gmail.com LinkedIn: linkedin.com/in/wambuikaranja |

GitHub: github.com/Wambo71

PROFESSIONAL SUMMARY

Innovative Full-Stack Developer with hands-on experience architecting and implementing scalable, production-grade web applications using React, Flask, and PostgreSQL. Strong expertise in RESTful API design, OAuth/JWT-based authentication, relational database modeling and optimization, and cloud-native deployment pipelines. Proficient in building modular, maintainable systems with a focus on performance, security, and testability. Experienced in Agile development workflows, collaborating closely with product and engineering teams to deliver robust, high-impact software solutions

CORE TECHNICAL SKILLS

Programming & Development

- HTML5, CSS3, JavaScript
- Python / Flask
- UI/UX design principles
- MYSQL
- Responsive Web Design
- AI Automation
- Version Control (Git/GitHub)

Software & Web Development

- Front-End Development
- Back-End Integration
- Web Performance Optimization
- SEO & Search Engine Implementation
- Database design

IT Support & Systems

- Windows /Linux mint OS Installation & Configuration
- Hardware & Software Troubleshooting

- Network Setup & Maintenance
- System Monitoring & Diagnostics

Tools & Technologies

- Visual Studio Code
- WordPress
- Figma (UI/UX tools)

Core Soft Skills

- Team collaboration
- Time management
- Problem solving
- Communication

PROFESSIONAL EXPERIENCE

Freelancer Developer-Nairobi(november- present)

- Architected and developed scalable applications with RESTfulAPI design.
- Implemented authentication using JWT and OAuth2 protocols.
- Optimized database queries and implemented caching strategies for improved performance.
- Deployed applications on cloud platforms(Render,Vercel).
- Collaborated with clients using Agile methodologies to deliver production-ready solutions.

Full Stack Developer Intern – Moringa School (May 2024 – November)

- Designed and implemented 5+ full-stack web applications using React and Flask
- Developed RESTful APIs with secure JWT authentication and optimized SQLAlchemy queries
- Led Agile ceremonies as Scrum Master for a team of 6 developers
- Conducted 20+ code reviews and pair programming sessions
- Deployed applications to Render and Vercel with CI/CD pipelines - Debugged and resolved 50+ cross-stack issues

Teaching Intern – Mwangaza Mixed Secondary School (May 2023 – August 2023)

- Delivered English and Literature lessons to over 100 students
- Designed structured lesson plans and educational materials
- Mentored peers and junior developers

PROJECTS

SkillBridge – Freelance Marketplace Platform

- Full-stack marketplace built with React, Flask, PostgreSQL
- Implemented JWT-based authentication and role-based authorization
- Developed 15+ RESTful API endpoints and normalized database schema

E-Commerce Web Application

- Flask-based e-commerce platform with product catalog and order processing
- Implemented REST APIs and relational database models
- User reviews and ratings

Online Shopping App

- React and Node.js shopping application with PostgreSQL backend
- Implemented search, checkout, and inventory management features

My Portfolio

- Built responsive personal portfolio using React to showcase projects,Skills and experience
- Implemented reusable components,routing and modern UI components.
- Deployed using Render

EDUCATION

Software Engineering Certificate – Moringa School,

Nairobi, Kenya Bachelor of Education (Arts) – Maasai

Mara University, Narok, Kenya

CERTIFICATIONS

Agile Project Management

Fundamentals Responsive Web

Design – freeCodeCamp Python for

Web Development – Moringa School

AI Automation -Moringa

ADDITIONAL SKILLS

Leadership, Collaboration, Adaptability, Emotional Intelligence
