PROFESSIONAL SUMMARY

Detail-oriented AI Data Specialist and Software Engineering graduate with a Bachelor's degree in Education. Experienced in AI Model Evaluation, prompt assessment, data quality assurance, and AI Data Annotation. Proven ability to apply strong analytical skills, critical thinking, and written English proficiency to evaluate structured/unstructured datasets, improve machine learning model accuracy, and interpret complex guidelines. Recognized for delivering high-quality, precise work in remote, deadline-driven environments.

CORE COMPETENCIES

- AI Data Annotation and Labeling
- AI Model Evaluation and Testing
- Prompt Assessment and Refinement
- Data Quality Assurance (QA)
- Content Moderation and Verification
- Information and Data Analysis
- Internet Research and Validation
- Complex Guideline Interpretation
- Written English Proficiency
- Remote and Independent Work

TECHNICAL SKILLS

- Programming Languages: Python, JavaScript, SQL, HTML, CSS
- Frameworks & Databases: Flask, React, PostgreSQL, MySQL
- Tools & Platforms: Git, GitHub, Postman, Visual Studio Code, Microsoft Excel, Google Sheets

RELEVANT EXPERIENCE

Freelance AI Trainer and Data SpecialistRemote / Nairobi, Kenya

- AI Model Evaluation: Evaluated, rated, and improved AI-generated responses (RLHF) across multiple NLP tasks, Ensuring 95%+ accuracy in linguistic quality, logic, and factual correctness.
- Prompt Assessment: Designed, tested, and annotated prompts to train conversational AI, ensuring strict adherence to project guidelines and quality standards.
- Data Quality Assurance: Conducted internet research and data verification to validate information reliability, resolve inconsistencies, and prevent bias in model training datasets.
- Content Evaluation: Reviewed *and annotated large-scale textual datasets* while maintaining strict data integrity and confidentiality requirements.
- Guideline Interpretation: Successfully interpreted complex project documentation to deliver highly accurate, localized linguistic data under tight deadlines.

Software Engineering Projects | Moringa School/Nairobi, Kenya

- Designed, developed, and deployed full-stack web applications using Python, Flask, React, and SQL.
- Built and documented REST APIs, managed relational databases, and systematically debugged software issues to ensure optimal functionality.
- Collaborated with cross-functional teams using Git and GitHub, producing clear technical documentation and maintaining organized project workflows.
- Strengthened data validation skills by ensuring application inputs and datasets were free from errors, maintaining application stability.

EDUCATION

Software Engineering Bootcamp

Moringa School | Nairobi, Kenya

- Coursework: Python Programming, SQL Databases, JavaScript, REST APIs, Software Testing, Full-Stack Development, Git and GitHub.

Bachelor of Education (English and Literature)

Maasai Mara University | Narok, Kenya

- Relevant Skills Developed: Academic Research, Advanced Written/Verbal Communication, Information Analysis, Data Interpretation, and Report Writing.

LANGUAGES

English: Fluent (Expert in written communication, content evaluation, and linguistic nuance)

Swahili: Native (Expert in local linguistic nuance, cultural context, and grammar syntax)
